

Index to *Your Roots and Mine Vol 1 #2* by Millard Fillmore Willard

There is no page 285

Misspellings [obvious ones] are included and this also affects nicknames spelling.

In many cases the death of a child only gives the circumstances and the father's name. There are a Lot of deaths listed this way. Remember I am compiling this with a voice recognition system. As an example of an error I found: Banks became thanks.

Sometimes churches are used as references for places and in these cases they will be indexed as Places instead of Religion.

Topics: military, associations, religion, places, occupations, legal, events, tracts, exposition.

In the course of a page the spelling of a surname by the compiler could change.

There are numerous criminal acts and fires causing destruction and death in the body of the work. These events have not been indexed, only the names of the people involved.
